

FLOOD PROTECTION WEBSITE (CRS ELEMENT 352 WEB3)

*LIST OF ADDRESSES FOR AVAILABLE COPIES OF FEMA ELEVATION CERTIFICATES*

When a property owner applies for a permit to build (or substantially improve) an insurable structure in a FEMA Special Flood Hazard Area (SFHA), they must conduct an elevation survey and submit a FEMA Elevation Certificate (EC). The City of Rahway maintains copies of ECs submitted for all newly constructed (and substantially improved) structures within the SFHA, as required for participation in FEMA's National Flood Insurance Program. The City also maintains copies of ECs submitted for some properties in the SFHA that were slightly improved or located adjacent to a SFHA. To obtain a digital copy of a FEMA Elevation Certificate that the City has obtained, you may contact the City's CRS coordinator at [dilorenzo@najarian.com](mailto:dilorenzo@najarian.com). The following is a list of City properties where ECs are available. This list starts with the most recent submissions for finished constructions, and an asterisk denotes a property that was slightly improved.

846 Main Street  
242 Linden Avenue\*  
915 Inwood Place\*  
634 Maple Avenue\*  
174 Madison Avenue\*
